

## InsightSoftware.com prepares for its North American User Group meeting in Scottsdale, Ariz.

*Attendees to be the first to see and interact with the all-new Insight Version 10*

**DENVER, Colo. January 18, 2010** – InsightSoftware.com, a global software provider of Business Optimization Software (BOS), is preparing for its upcoming North American User Group (NAUG) meeting in Scottsdale, Ariz. Scheduled for March 21-23, the meeting will take place at the Hyatt Gainey Ranch Resort. All Insight® software users are invited to attend.

Taking the meeting spotlight, NAUG attendees will receive a sneak peek of Insight Version 10. The new version features an updated (and very slick) user interface, integrated reporting enhancements, and a new community portal, incorporating social media. Attendees also receive a comprehensive update of their Insight solution and networking opportunities with other Insight software users.

“With our NAUG meeting just around the corner, our customers can still take advantage of our early-bird rates,” explained Paul Yarwood, InsightSoftware.com’s U.S. Operations General Manager. “Back by popular demand, we will host a training day on Wednesday, March 24. However, there are limited spots, so now is the time to register.”

Additionally, attendees can tailor the meeting based on several presentation choices, including:

- **Solution Breakout Sessions:** Individual Business Optimization Solutions with solution demonstrations and customer experiences
- **Expert Breakout Sessions:** Advanced features explained in-depth, and great tips and techniques from InsightSoftware.com product specialists
- **Best Practices:** Getting the best out of Insight and your ERP solution, with direct help and experience from customers and partners

The meeting will also highlight customer presentations, customer service updates and the Insight product roadmap. To learn more about the NAUG meeting, visit [www.InsightSoftware.com/naug](http://www.InsightSoftware.com/naug).

### **About InsightSoftware.com and Insight®**
